Pending expiration of NRC License

(NOTE: This will be used as the  
Documents Title in ADAMS)

7/30/2012 (09:30) I spoke with Mr. McCasland about the pending renewal of the company's NRC license. He stated that they were aware that the license was coming up for renewal and that he expected that the application would be completed at the latter part of next week. I inquired as to whether the licensee had any radium gauges that needed to be put on the license to which he replied they did not. Mr. McCasland was unaware of Region I's change of address so I provided it to him.
