In the Matter of
Detroit Edison Co.
Docket No. 52-033-COL
(Fermi Nuclear Power Plant, Unit 3)

Dear Administrative Judges:

Pursuant to the Board's Order dated September 11, 2009, the Staff herein provides to the Board and the parties as an enclosure to this letter an index identifying additions to the Hearing File, as required to be disclosed by the Staff in accordance with 10 C.F.R. § 2.336(d). The index contains the ADAMS accession number, date, and title of each item so as to make the item readily retrievable from the agency's website, www.nrc.gov, using the ADAMS "Find" function. Additionally, the Staff will add the indexed documents to the folder in the agency's Electronic Hearing Docket ("EHD") associated with this proceeding, entitled "Fermi Hearing File." Also attached, as required by 10 C.F.R. § 2.336(c), is the Affidavit of Adrian Muñiz.

In preparing this hearing file update, the Staff discovered that certain documents on the Fermi 3 docket had not been assigned the correct electronic codes in ADAMS. Most of these incorrectly profiled documents fell into two categories, either annual updates to the Fermi 3 COL application or certain references that have already been cited in the Fermi draft environmental impact statement (DEIS). The application updates can be found on NRC's public website for the review of the Fermi 3 COL application and have been available in ADAMS prior to this filing. Documents in the latter category were referenced in the DEIS, along with their ADAMS accession numbers, and likewise have been publicly available prior to this filing. The documents have now been correctly profiled in ADAMS, and as this is the first hearing file update since the incorrect coding was discovered, all the documents are included in this update notwithstanding their prior public availability.

In accordance with the Licensing Board's September 11, 2009, Order, relieving all parties from the obligation of producing privilege logs, as required by 10 C.F.R. §§ 2.336(a)(3) and 2.336(b)(5), the Staff is not producing privilege logs at this time. However, in accordance with the September 11 Order, the Staff shall produce a log of documents withheld as containing proprietary information. As directed by the Licensing Board, the Staff shall preserve and maintain all privileged and/or otherwise protected documents during the pendency of this proceeding.

Respectfully submitted,
