RE: Contract DACA87-89-C-0076 - Tooele Chemical Agent Disposal Facility (TOCDF)

SUBJECT: Expedited amendment to U.S. NRC Materials License number 43-2746-01

Dear Ms. Cook:

I am writing to request an **expedited amendment** to our U.S. NRC Materials License number 43-2746-01 which is issued to EG&G Defense Materials, Inc. EG&G Defense Materials, Inc. is a wholly owned subsidiary of URS.

The Radiation Safety Officer currently listed on our license (Mike Jensen) is no longer employed with our company. As such, we need to update our license to reflect our current Radiation Safety Officer. The new Radiation Safety Officer is Graham Theobald. As requested, I have provided a copy of the Certificate of Completion for the Radiation Safety Officer course that Graham completed in 2006.

Beyond the change in Radiation Safety Officer, there are no other amendments to the license needed at this time. For informational purposes only, we plan to terminate our license once all of the gauges on the license are removed from our facility. Once that has occurred, we will submit a completed NRC Form 314 for closure of our license. Thank you for your time and expedited approval of this amendment.

Should you have any questions and comments regarding this matter, please contact Graham Theobald at (435) 830-7418.

Sincerely,

Branden R. Wilson
Safety Program Manager
