

Chemical & Nuclear Engineering

July 26, 2012

Paulette A. Torres
Project Manager
Research and Test Reactors Licensing Branch
Division of Policy and Rulemaking
Office of Nuclear Reactor Regulation
U.S. Nuclear Regulatory Commission
Washington D.C. 20555-0001

Dear Ms Torres;

This is to inform you that as of July 1, 2012, the University of New Mexico has a new President, Dr. Robert G. Frank. Also, Dr. Anil Prinja has been selected as the Program Director for Nuclear Engineering. This appointment is being made as the Nuclear Engineering Program is in a one year transition from being part of the Chemical and Nuclear Engineering Dept. to being its own department. Dr. Prinja will continue to fulfill his duties as the Reactor Administrator for the AGN-201M reactor located at the University of New Mexico - Docket 50-252. The current Dean is Catalin Roman and the current department chair is Tim Ward.

Sincerely,

A handwritten signature in black ink, appearing to read "Robert D. Busch".

Robert D. Busch, Ph.D, P.E.
Chief Reactor Supervisor

A handwritten signature in black ink, appearing to read "Anil Prinja".
Anil Prinja, Ph.D.
Reactor Administrator
