SUBJECT: GOODRICH CORPORATION, CONSENT TO INDIRECT CHANGE IN  
CONTROL, CONTROL NO. 577937

Dear Mr. Peterson:

This refers to your letter dated July 12, 2012 describing the proposed indirect change in control of your licensed activities whereby Goodrich Corporation will become a wholly owned subsidiary of United Technologies Corporation. From your letter, we understand that this transfer will not result in any change to the licensed name, location of use, materials, persons using licensed material, or persons responsible for radiation safety at the licensed facility.

Based on the above understandings, we have no objection to this change. Future changes in the licensed name, use, location, persons responsible for licensed material require submission of a request to amend the license. NRC approval must be received prior to implementation of the proposed change.

Please note that the office of the Region I Division of Nuclear Materials Safety has moved effective May 9, 2012. Our new address is:

U. S. Nuclear Regulatory Commission  
Region I  
2100 Renaissance Blvd, Suite 100  
King of Prussia, PA 19406-2713

The NRC's Safety Culture Policy Statement became effective in June 2011. While a policy statement and not a regulation, it sets forth the agency's *expectations* for individuals and organizations to establish and maintain a positive safety culture. You can access the policy statement and supporting material that may benefit your organization on NRC's safety culture Web site at <http://www.nrc.gov/about-nrc/regulatory/enforcement/safety-culture.html>. We strongly encourage you to review this material and adapt it to your particular needs in order to develop and maintain a positive safety culture as you engage in NRC-regulated activities.

S. Peterson
