Subject: REQUEST FOR ADDITIONAL INFORMATION REGARDING RENEWAL FOR CONTROL 576946

License No.: 25-27721-01
Docket No.: 030-35944
Control No.: 576946

Dear Ms.

This is in reference to your application dated February 7, 2012 and July 27, 2012 where you have requested to renew your NRC License. Please clarify and/or provide the following information:

1. In letter dated January 5, 2012 you request all correspondence be sent to a specific address, which coincides with the address currently on the license. However, in both applications dated February 7, 2012 and July 27, 2012 you state a different mailing address. Please confirm the mailing address. If it is in fact, 1400 29th Street, P.O. Box 5012, Great Falls, Montana, please explain why the address is different.
2. In application dated July 27, 2012, you have requested "Any byproduct material permitted by 10 CFR 35.300" and "Iodine-131". Please note, the use of Iodine-131 is permitted under the 10 CFR 35.300 modality. Therefore, they are not written on the license as two separate items. Please establish a maximum possession limit for the 35.300 modality taking into account the Iodine-131 usage. Currently, the limit on the license is 600 millicuries.
3. Please state if the only isotope you are using is Iodine-131 under 35.300 AND if you would like to be restricted to only that isotope.
4. Please state a maximum possession limit for the pre-packaged kits for the In vitro studies. It is listed on your license as "As needed", however for this particular modality we need a maximum possession limit.

Please respond to this email by Thursday, August 9, 2012.

Sincerely,

Lizette Roldán-Otero, Ph.D.

Health Physicist

Subject: Re: REQUEST FOR ADDITIONAL INFORMATION REGARDING RENEWAL FOR
CONTROL576946

Lizette, here are the answers you requested per this email and our phone conversation:

#1. The 1400 29th St. South, Great Falls, MT is the administration mailing address. The physical address of the nuclear medicine lab is 3000 15th Ave. S. Great Falls, MT 59405, This also works as a mailing address for the nuclear medicine department.

#2. I would like the maximum dose of 10 CFR 35.300 to be 900 mCi.

#3 no we would like to use other isotopes listed in that category.

#4 Please put the limit to 100 mCi.

Also per our phone conversation please keep the Great Falls Clinic Surgery Center at 1509 29th St. South, Great Falls, MT and Great Falls Clinic Medical Center at 1411 9th St. South, Great Falls MT on our license.

Thank you
Angie Korte
