Hello Jim

We have assigned TAC Number L33231 to this action for internal tracking purposes. TAC Number L32882 for the renewal remains open while the license is in timely renewal.

If there is further correspondence related to the amendment request, we would reference that number.

No technical deficiencies in the request have been identified at this time, and we plan on completing our review in a timeframe that supports your schedule.

If you have questions, just ask.

I will enter this acceptance email into the ADAMS system.

Nick

Nick

Here is the amendment. I will have Jere Jenkins, the Director of Nuclear Engineering Labs (responsible for our reactor license) submit this electronically to the Document Control Desk. Please let me know if you have any questions.

I really appreciate all your assistance with this amendment.

Thanks

Jim
