Dear Mr. Ryan:

Thank you for your letter expressing interest in attending internal planning meetings of the NRC Inspection Manual Chapter (MC) 0350 panel.

At the July 17, 2012, public meeting it was explained that this will not be possible. The MC 0350 Panel meetings involve discussions of preliminary, predecisional, and security information. Please note that all final agency decisions, inspection reports, public meeting notices and summaries, slide presentations, and correspondence regarding Fort Calhoun Station are docketed and publicly released via ADAMS and openly available on a website the NRC specifically created for enhanced communications with the public at: <http://www.nrc.gov/info-finder/reactor/fcs/special-oversight.html> and the general website at <http://www.nrc.gov/info-finder/reactor/fcs.html>. Additionally, you can subscribe to the NRC's electronic distribution service and directly receive all docketed correspondence from the NRC to Fort Calhoun Station.

We appreciate your interest in nuclear safety and we will continue to provide you opportunities to ask questions and to share your perspectives at future public meetings. If you have any further questions please contact Jeff Clark at 817-200-1147.

Sincerely,

/RA/

Anton Vogel, Director
Division of Nuclear Materials Safety

Mr. Mike Ryan
