Subject: Request for Amendment to License Number 53-27731-01

Dear Rachel,

We respectfully request your consideration and consent of amending our license to include the following changes:

1. To add Kenneth McNamara as an alternate Radiation Safety Officer;

Mr. McNamara received his Associates of Applied Science Degree in Quality Assurance Inspection & Non Destructive Examination Technology in 1983; where he received 90 hours training; specific to radiation safety. He was first certified as a Radiographer in 1983. Since that time he has been continuously employed as an NDT technician and supervisor. In 1996 Mr. McNamara received additional training from MQS Inspection, Inc. to be a Facility Radiation Safety Officer for offices which included, Honolulu, HI, Los Angeles, CA, and Phoenix, AZ. He has successfully maintained his IRRSP certification in both Gamma and X-Ray since 1999. His current IRRSP certification expires in Nov. 2014.

Mr. McNamara has been employed full time by **Engineering & Inspections Hawaii, Inc.** since April 2004, and has been performing the duties of Radiation Safety Officer under my supervision.

The reason we are requesting this addition; is my presence is being required on more projects under our State of Pennsylvania license since they became an agreement state.

There will be no other changes to our personnel and licensed program, it remains as described in our original license application. If you have any further questions or require any additional information please do not hesitate to contact myself or our Alternate Radiation Safety Officer Ken McNamara at (808) 682-1667.

Sincerely,

Brian McKenna
President / General Manager
Radiation Safety Officer
