SUBJECT: Revised Drawing for Certificate of Compliance No. 9204 for the Model 10-160B Package
Docket No. 71-9204

Dear Mr. Saverot:

EnergySolutions provides the attached revised 10-160B thermal shield drawing as replacement drawing to our amendment request of July 20th. The changes address the issues that have been the subject of several recent emails and discussions. Please replace the drawing with the one attached to this submittal.

Since this package provides unique capabilities in support of both commercial and governmental nuclear facilities, we request completion of the review of this submittal as soon as possible with issue of the revised certificate by August 23, 2012.

Should you or members of your staff have questions about this request, please contact me at mswhittaker@energysolutions.com or Mirza Baig at mibaig@energysolutions.com.

Sincerely,

A handwritten signature in black ink, appearing to read 'Mark Whittaker', written over a horizontal line.
