Subject:

Christiana: On Monday, August 13, OGC led a call with the Department of Justice to discuss the Commission's implementation of the Firearms Guidelines through the use of orders to exercise preemption authority, among other topics. It was communicated to DOJ that the use of orders is an interim action that is being taken by the Commission to address the needs of a limited number of licensees and is not part of the ongoing rulemaking effort. The DOJ agrees with the approach, and understands that the NRC is continuing the associated rulemaking.

DSP Document Processing: Please enter this e-mail in ADAMS to record the action to close NSIR-2012-0258 (201200099/EDATS: SECY-2012-0235), and forward to the NSIR mailroom for closeout and transmission to OEDO.
