License DPR-20

Reference: 1. NRC letter dated January 26, 2012; William Dean to John Herron;
“Confirmatory Order (Effective Immediately) and Notice of Violation;
Investigation Reports 1-2009-041, 1-2010-019, and 1-2010-031; Inspection
Report 05000333/2011009”.

Dear Mr. Dean:

Section V.B of the referenced NRC Confirmatory Order pertains to a case study presentation at station-wide meetings with Entergy employees at each of Entergy's nine commercial nuclear power plant sites. Section V.B states: “Entergy will make this case study available for NRC review before conducting these station-wide meetings, and will notify the senior resident

inspectors at each of the Entergy sites regarding the dates and times of these meetings at their respective sites.”

This letter is to inform you that Entergy has completed development of the case study presentation materials and has established a planned schedule for conducting the station-wide meetings. This documentation is available for review at each of our nuclear power plant sites. The first meeting is currently scheduled for June 14, 2012.

There are no new commitments identified in this letter. If you have questions or comments regarding the case study presentation for Section V.B, please contact David Mannai, Senior Manager, Licensing at 802-380-1175.

Sincerely,

A handwritten signature in black ink, appearing to be 'JFM / DM / KK', written over a horizontal line.
