RE: Weston Solutions, Inc. Request to Amend Type A Broad Scope Radioactive Material License #30-29422-01 to Standby Mode-No Operations status; Docket No. 030-38420

To Whom It May Concern:

This letter provides a request to amend the above-referenced license to Standby Mode – No Operations (Primary program code 03810). A completed copy of NRC FORM 313 is attached.

Weston Solutions, Inc. (WESTON) has maintained this license since April 30, 2011 and has not applied it to any operations, or taken possession of any radioactive materials under its authorization since the license was granted. As a result, there are no outstanding issues associated with radioactive materials disposition, storage, or handling to be addressed or evaluated in considering this amendment request.

Based on earlier discussions with Ms. Rosalyn Jones of the NRC headquarters office, WESTON understands that the requested license category will reduce our annual fees to about \$5,000. In addition, we understand that our license may only remain in Standby Mode for a maximum of two (2) years and the expiration date of our license will be two years from the date of issue (assumed to be around August 30, 2012). Our company intends to continue to pursue projects that may require an active license. In the event that such work activities are acquired, we will immediately issue an amendment request to return to our prior active status. If work activities have not developed as we near the end of the two-year period, WESTON may decide to terminate the license.

In order for this amendment to achieve the desired objective of aligning our license status with a cost-effective fee structure, we understand that the amendment needs to be finalized before the end of the federal fiscal year. If you have any questions or require additional information to expedite and complete this action in a timely manner, please feel free to contact me at (505) 239-6799, which is my cell phone number. Thank you for your assistance.

Sincerely,
WESTON SOLUTIONS, INC.

Robert P. Schoenfelder, CHP
Corporate Radiation Safety Officer

LICENSING AND/OR TECHNICAL REVIEWER

ch

This is to acknowledge the receipt of your:

☒ LETTER and/or ☐ APPLICATION DATED: 08/16/2012

The initial processing, which included an administrative review, has been performed.

☒ AMENDMENT ☐ TERMINATION ☐ NEW LICENSE ☐ RENEWAL

- ☒ There were no administrative omissions identified during our initial review.
- ☐ This is to acknowledge receipt of your application for renewal of the material(s) license identified above. Your application is deemed timely filed, and accordingly, the license will not expire until final action has been taken by this office.
- ☐ Your application for a new NRC license did not include your taxpayer identification number. Please fill out NRC Form 531, located at the following link:

<http://www.nrc.gov/reading-rm/doc-collections/forms/nrc531.pdf>

Send the completed NRC Form 531, by facsimile, to the following number: (301) 415-5387

A copy of your action has been emailed to our License Fee and Accounts Receivable Branch, in our Headquarters office in Rockville, MD. You will be contacted separately if there is a fee issue involved.

Your application has been assigned the above listed **MAIL CONTROL NUMBER**. When calling to inquire about this action, please refer to this control number. Your application has been forwarded to a technical reviewer. Please note that the technical review, which is normally completed within 180 days for a renewal application (90 days for all other requests), may identify additional omissions or require additional information. If you have any questions concerning the processing of your application, our contact information is listed below:
