Louisiana Energy Services, LLC
License Number: SNM-2010
NRC Docket Number: 70-3103

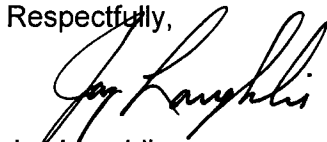

Subject: Written Follow-up Report for Event Notification 48143

Louisiana Energy Services, LLC (LES) is providing this letter in accordance with 10 CFR 70.74(b), which requires submittal of a written follow-up report within 30 days of the initial concurrent notification report. On July 31, 2012, Event Notification 48143 was submitted detailing a non-industrial fatality which occurred at the URENCO USA site.

The reporting requirements of 10 CFR 70.74(b) are described in 10 CFR 70.50(c)(2). Event Notification 48143 (Enclosure 1), details Section (i) requirements of the aforementioned CFR; and the Written Follow-up Report (Enclosure 2) details Sections (ii), (iii) and (iv) requirements.

If you have any questions, please contact Perry Robinson, Vice President of Regulatory Affairs and General Counsel, at 575-394-6598.

Respectfully,

Jay Laughlin,
Chief Nuclear Officer and Head of Technical Services

Event Text

ONSITE FATALITY

"A fatality occurred at the facility due to cardiac arrest. The individual was a maintenance supervisor, not actively engaged in work. He was en-route to an on site meeting. Specific details if requested by regional office will be included in a 30 day follow-up report.

"In accordance with 10 CFR 70 Appendix A(c) this event is being reported concurrently with a report to the New Mexico Occupational Health and Safety Bureau. The report is required within 8 hours of a fatality at the facility.

"The event did not impact plant safety or systems, structures or components nor did it involve the release of any material.

"Facility medical personnel provided first aid until Eunice Fire and Rescue transported the individual to the Lea County Regional Medical Facility."

No press release is planned.

ENCLOSURE 2

Written Follow-up Report

Follow-up Report

Applicable information required by 10 CFR 70.50(c)(2)(ii – iv)

- ii. The probable cause of the event, including all factors that contributed to the event and the manufacturer and model number (if applicable) of any equipment that failed or malfunctions is provided below:

This event was due to natural causes.

- iii. Corrective actions taken or planned to prevent occurrence of similar or identical events in the future and the results of any evaluations or assessments are:

Due to the nature of this event, no corrective actions are planned.

- iv. UUSA NEF is subject to Subpart H of 10 CFR 70; therefore, a discussion of whether the condition was identified and evaluated in the Integrated Safety Analysis (ISA) is provided below.

This event was due to natural causes and as such was not identified in the ISA.
