---

Control No. 578129 (License No. 29-30465-01): The licensee requests to add another storage location to its license. However, the requested location is in the State of NJ, and the licensee should have sent this request to the State of NJ, and not to NRC. I have informed the licensee that the location cannot be included in their NRC license. Please void this action.

Thanks

Sattar
