DECLARATION OF BILL VON TILL

I, Bill Von Till, do hereby state as follows:

1. I am employed as Chief of the Uranium Recovery Licensing Branch in the Nuclear Regulatory Commission's Office of Federal and State Materials and Environmental Management Programs, Division of Waste Management and Environmental Protection, Decommissioning and Uranium Recovery Licensing Directorate. My supervisory responsibilities include oversight of the NRC Staff's review and evaluation of Powertech (USA) Inc.'s application for a license to be used in connection with the proposed Dewey-Burdock uranium recovery facility. On this date I am acting for Keith McConnell, who is Deputy Director in the Division of Waste Management and Environmental Protection, with responsibility for the Decommissioning and Uranium Recovery Licensing Directorate.

2. As part of their responsibilities in preparing the hearing file and mandatory disclosures for this proceeding, NRC staff members under my supervision identified three documents as privileged because they contain information concerning the Staff's deliberative process. The documents are listed in Attachment 2 to the Staff's September Update to the Hearing File, which I understand will be filed on September 4, 2012.

3. I have personally reviewed the documents identified as privileged in Attachment 2 and have determined, in accordance with the guidance set forth in Management Directive 3.4,

that the documents contain predecisional information concerning the Staff's review of Powertech's license application. The documents contain the Staff's analyses, recommendations, opinions, or evaluations, and they may not necessarily reflect the final agency position with respect to the matters discussed therein. The documents comprise part of the deliberative process necessary to the Staff's review of Powertech's license application.

4. Further, I have determined that disclosure of the documents could result in harm to the agency, in that it would (a) prematurely disclose the preliminary views of individual Staff members or the Staff prior to reaching a final agency decision, potentially creating confusion as to the actual policy or views of the NRC Staff; (b) hinder the efficiency of the Staff, in that forced disclosure of its internal discussions on an unresolved issue would tend to chill all future deliberations and would interfere with the Staff's ability to engage in a free exchange of opinions and analyses prior to publishing its final review documents; and (c) imply or suggest incorrectly that the opinions of the Staff members involved in these communications are actually the final decisions of the agency, when no such final decision has yet been made.

5. Accordingly, I formally invoke the deliberative process privilege with respect to the document listed in Attachment 2 to the Staff's Hearing File Update of September 4, 2012.

6. I declare under penalty of perjury that the foregoing is true and correct to the best of my knowledge, information and belief.
