Re: Amendment of NRC Material License No. 13-32079-01

Dear Sirs:

Due to a change in the location of the Andrews Engineering Missouri office, we need to amend the license for our nuclear density gauge. The requested change is as follows:

Item	Current	Requested
Address(es) where Licensed Material will be Used or Possessed	Storage areas at 7172 Graham Road, Indianapolis, IN and 131 W. Booneslick Road, Warrenton, MO and temporary job sites anywhere in the United States where NRC maintains jurisdiction.	Storage areas at 7172 Graham Road, Indianapolis, IN and 101 Walton, Warrenton, MO and temporary job sites anywhere in the United States where NRC maintains jurisdiction.

No other changes are being requested. The anticipated move date is the end of November, 2012. The gauge that is normally stored at the Missouri office is currently at a job site and will be stored at another Andrews office until next year. Thus, there is not any current or future storage at the current location.

Attached are an original and copy of NRC Form 313. It is our understanding that there is no fee for this requested amendment.

Please call if you have any questions.

Sincerely,

A handwritten signature in black ink, appearing to read "William G. Paraskevas".

William G. Paraskevas
