Dear Chairwoman Macfarlane,

Please extend the deadline for public comments on the court-ordered environmental assessment of your "Nuclear Waste Confidence Decision and Rule." Your Jan. 2 deadline is too short.

Moreover please hold additional in-person hearings be held in communities living near high-level radioactive waste storage pools and dry casks, including on Cape Cod, from which there is no means of escape should a disaster occur at Pilgrim nuclear plant at Plymouth.

I will appreciate your reply. Thank you.

Sincerely,

John Nichols
