**Subject:** Request for Additional Information  
(NOTE: This will be used as the Documents Title in ADAMS)

The applicant submitted an incomplete NRC Form 313, and the application did not include details of radiation safety program. I called the applicant to request details of their radiation safety program. He stated that their consultant (David Rhoe) had helped them to complete the application. He did not understand what additional information was required so I helped him get NUREG 1556, Vol 1, Rev. 1 from the NRC web site. I suggested to him that he should follow the guidance in this document to complete the missing information.

He was able to get to the document but his computer was too slow, so I told him to call me back after he had downloaded document, including the Appendices A & B. I gave him my telephone number. He stated that he will call me back this afternoon.

(Felix speaks and understands English fairly well)
