

**NUCLEAR REGULATORY COMMISSION**

**[Docket No. NRC-2012-0245]**

**Agency Information Collection Activities: Submission for the Office of Management and Budget (OMB) Review; Comment Request**

**AGENCY:** Nuclear Regulatory Commission.

**ACTION:** Notice of the OMB review of information collection and solicitation of public comment.

**SUMMARY:** The U.S. Nuclear Regulatory Commission (NRC) has recently submitted to OMB for review the following proposal for the collection of information under the provisions of the Paperwork Reduction Act of 1995 (44 U.S.C. Chapter 35). The NRC hereby informs potential respondents that an agency may not conduct or sponsor, and that a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. The NRC published a *Federal Register* notice with a 60-day comment period on this information collection on November 14, 2012 (77 FR 69664).

10. *Abstract:* The NRC collects planning information on topical report (TR) submissions from nuclear power plant owner groups (OGs), vendors, the Electric Power Research Institute, and the Nuclear Energy Institute (NEI) in accordance with agency guidance to process requests for reviews of TRs. A TR is a stand-alone report containing technical information about a nuclear power plant safety topic that can be submitted to the NRC for its review and approval. A TR improves the efficiency of the licensing process by allowing the staff to review a proposed methodology, design, operational requirements, or other safety-related subjects that will be used by multiple licensees following approval by referencing the approved TR. The TR provides the technical basis for a licensing action. Vendors have voluntarily submitted information related to planned submittals of

TRs on an annual basis. As part of its ongoing efforts to improve the effectiveness and efficiency of the TR program, the agency requires up-to-date information on planned TR submittals.
