Materials Licensing Branch

Division of Nuclear Material Safety

2443 Warrenville Road

Suite 210

Lisle, Illinois 60532-4352

Subject: Additional Information for Radioactive Material License 22-00057-03,
Control No. 579058

Dear Mr. Tran:

In your request for additional information dated 11 January 2013, you asked for a copy of the receipt documentation for the Cm-244 sources that were previously used under the subject license. Attachment 1 contains copies of these receipt letters including the recipient's radioactive material license number. You requested the last leak test data for each of those sources. Attachment 2 contains a list of those leak test results. Please note that the last leak test result for source serial number 2238LM is not provided. That device was used for a period of 5 weeks in 1998 on loan from the device manufacturer. The manufacturer provided a leak test certificate with the device; but no further leak testing was done by 3M. The manufacturer's leak test certificate is no longer maintained by 3M.

In your correspondence you requested a copy of the receipt documentation for the sources previously used at the 3M facility in Columbia, Missouri. Attachment 3 contains copies of the documentation for all sources transferred since 1998. Receipt documentation for sources transferred prior to that year is no longer maintained by 3M. Attachment 4 contains a list of the last leak test results for many of the sources previously used at the 3M facility in Columbia. Some sources were not required to be leak tested; either because they contained only H-3 or because they contained less than 100 microcuries of a beta-emitting isotope (either Pm-147 or Tl-204).

RECEIVED JAN 25 2013

3M Center, Building 220-6W-08
St. Paul, MN 55144-1000
Ph: (651) 736-0498

Dear Mr. Lewandowski:

Please be advised that the radioactive device(s) as detailed below have been received by NDC Infrared Engineering. As of July 13, 1998, NDC Infrared Engineering has taken possession and title of these devices under CA License No 1451-19.

<u>Date Received</u>	<u>Model</u>	<u>NDC S/N</u>	<u>Source S/N</u>	<u>Isotope</u>	<u>Activity (mCi)</u>
13-July-1998	105	6104	2238LM	Cm-244	250

Notification of this transfer must be sent to your government agency that controls radiation in your area. This notification must be sent on company letterhead. If you have any questions please feel free to give me a call.

Sincerely,

A handwritten signature in black ink, appearing to read 'Frank Aguirre', with a stylized flourish at the end.

3M Center, Bldg. 220-06-W-08
St. Paul, MN 55144

Mr. Lewandowski;

This letter is to confirm that on 09-13-2001 South Dakota State University accepted the transfer of the following electronic device from the 3M plant located in Brookings, SD. This was accepted from Mr. Kaounas Kostas.

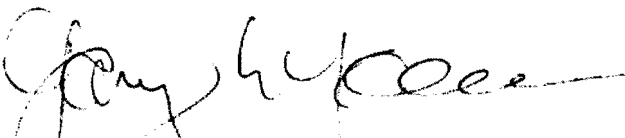

Device: X-Ray Spectrometer
Manufacturer: Metorex
Model Number: XMET820
Serial No.: PSS2250

This device contained two radioactive sources as below:

- 1) Fe-55 source
 - a. S/N: 7024LG
- 2) Cm-244
 - a. S/N: 1730LM

For your information, this device was accepted under our Broadscope License Number: 40-02194-17.

If you have any questions, please feel free to contact me.

Gary Yarrow, Director and Radiation Safety Officer

RE: Disposal of your analyzer

This is to inform you that on April 11, 2002 Spectro ASOMA Analytical Instruments received and took possession of your analyzer serial number 1186, containing radioisotope Cm-244 13mCi, serial number 0947LMLM, Am-241 3mCi, serial number 6441LA and an Am-241 30μCi stabilizer.

I trust this information is sufficient. Please feel free to contact me if I can be of further assistance.
