Would you please request a briefing book through EDO for the GE Morris spent fuel facility? This is a supplement to briefing materials for Dresden for the Purdue/Dresden trip.

Thanks,
Vic

Hi Pam,

Thank you so much for the quick response. We will be requesting a briefing book thru the EDO's office and will coordinate with the Region to arrange the agenda. Victor Cusumano our reactor TA will be traveling with the Commissioner and I have included him in the e.mail.

Hi Christine,

Rebecca informed me that Commissioner Magwood will be in IL on 2/13 (at Purdue) & 2/14. On 2/14 he would like to tour both Dresden and GE Morris. The Commissioner's flight departs from O'Hara on 2/14 at 6 pm.

I reached out to GE Morris (Mark Varno) to make them aware of the interest but no details have been worked out. GE Morris can support the visit (see attached email). I understand that the Region usually handles these actions. Is that correct?

Good afternoon,

I am trying to find out who is the PM for GE Morris and I think that you are, but let me know if you are not. Commissioner Magwood is interested on visiting, brief (~1hr.) visit to see the facility, the GE Morris facility on February 14, since he would be close to the area. I will appreciate if you can direct me to the appropriate PM and I will provide the information to Rebecca.

Thanks,
Norma
