Hi Jenny,

The new one. I have a question in the new one about phrasing of future work and how we might put something in there to capture the future expansion of the ISFSI that will be needed if the reactor stays operational for the full renewal period. Thanks. It is not a huge rush. At this point it looks pretty certain that Friday NMSS will accept the application and I would like to get the letters out by the end of March or so.

Jean

Hi,

I knew I forgot something!!! Sorry about that. Do you want me to review the draft you previously sent me or the new one?

Jenny

**Subject:** PI Tribal consultation letter

Good morning Jenny,

Kevin had asked me to run this letter by you sometime ago but I hesitated due to the uncertainties of how we were going to procede. It now seems to me that we will handle the 106 much like any other. This "form" letter will go out requesting info and then we will follow up with a letter making clear our determination.

If you understand anything differently following our meeting in Drew's office the other day please let me know.

I will update you if I hear anything new on any of the fronts.

Thanks.

Jean
