Yes, next week would be fine.

We are fine with OGC and PIIC attendance at the environmental meetings. I will need to know by the end of next week how many people and who will be attending. From a tour perspective, we are going to have a large group here that day so we will have to split up into multiple groups. I am currently scheduling the environmental group to have a condensed tour of the ISFSI from outside the secure area. You will be able to view the ISFSI, but we will not go into the ISFSI and walk on the cement pads. You will be able to access the berm.

Since we will be in the middle of an outage, we also will not be able to go in to see the spent fuel pool or Auxiliary Building where the casks are loaded. Please let me know if this will be an issue.

Brian would sometime next week work for you? I would like to discuss with my contractor and put together a comprehensive list of items for discussion.

It appears we may have some interest from OGC and the PIIC to attend the tour does that work for you to add these people (about 5 persons) to the group?

Have a great morning.

Jean

Jean,

Could you please propose a good time for you, Britta, Jim and I to talk about your upcoming visit on Nov 7<sup>th</sup>? We would like to plan for the meeting and make sure we have the appropriate information available for you and that we understand what additional areas of the ISFSI you would like to see.

Thanks,

**Brian R. Zelenak**
