That sounds great Heather. I will let all NRC parties know that Friday is the day with a start time of 8:00 am. When you know the details of your return flight, please let us know so that we can be sure to accommodate your departure time.

Have you and Phil had any further discussion on the MOU? I will be working from home next week and available via e-mail and cell phone if you need to contact me.

Have a great day,

Jean

Jean

We will plan on meeting with you (and others) on Friday September 14. Can we start early--say around 8 AM--so we can fly out later Friday afternoon?

Heather

Friday. They felt they could participate on Tuesday, but as they are the organizers of the spent fuel/transportation meeting you are coming to attend their focus will be split. Having the meeting on Friday will also provide an additional opportunity for you to ask clarifying questions regarding the spent fuel/transport information presented on the previous two days. With this said NMSS/NRC will accommodate the date that works best for the PIIC.
