

UNITED STATES
NUCLEAR REGULATORY COMMISSION
REGION IV
1600 EAST LAMAR BLVD
ARLINGTON, TEXAS 76011-4511

February 14, 2013

Edmund (Ted) Baumgartner, Esquire
Corporate Counsel
Mitsubishi Nuclear Energy Systems, Inc.
1001 19th Street North
Arlington, VA 22209

Dear Mr. Baumgartner:

On February 7, 2013, the U.S. Senate Environment and Public Works Committee submitted a request to the U.S. Nuclear Regulatory Commission (NRC) for a copy of Mitsubishi Heavy Industries' (MHI) document entitled, Root Cause Analysis Report for Tube Wear Identified in the Unit 2 and Unit 3 Steam Generators of San Onofre Generating Station (SONGS), along with a redacted version of the document if it contains proprietary information. Therefore, the NRC is requesting that MHI provide to NRC a copy of the document.

If you seek to have the document, or a portion of it, withheld from public disclosure because it contains trade secrets, privileged, or confidential commercial or financial information, please comply with the document marking, affidavit, and all other requirements of 10 C.F.R. 2.390. Please provide both a redacted and unredacted copy of the document.

Upon completion of the NRC 10 C.F.R. 2.390 review, the NRC will submit both the redacted and unredacted copies of the document to the Committee.

Additionally, the NRC will make available the redacted version of the document for public inspection in the NRC Public Document Room and from the Publicly Available Records (PARS) component of the NRC's Agencywide Documents Access and Management System (ADAMS).

We ask that you provide us with the report by Friday, February 15, 2013. Please contact me if you have any questions concerning this request.

Sincerely,

/RA Elmo E. Collins for/

Arthur T. Howell III, Team Manager
