RE: NRC License No. 24-32234-01

Dear Sirs,

We we wish to amend NRC License No. 24-32234-01 in the  
following ways:

1. Remove Christopher Moore as Radiation Safety Officer.
2. Add Michaelle Gamble as Radiation Safety Officer. Michaelle Gamble is the Radiation Safety Officer for Carroll County Memorial Hospital License No. 24-32611-01. A copy of this license dated 12-10-2012 is enclosed.

Per CFR 35.24, the administration of Excelsior Springs Medical Center has approved the new Radiation Safety Officer.

Thank you for your assistance.

Sincerely,

Sally Nance , Administrator

Excelsior Springs Medical Center

RECEIVED FEB 15 2013

UNITED STATES  
NUCLEAR REGULATORY COMMISSION  
REGION III  
2443 WARRENVILLE ROAD, SUITE 210  
LISLE, ILLINOIS 60532-4352

DEC 10 2012

Michaelle Gamble, CNMT  
Radiation Safety Officer  
Carroll County Memorial Hospital  
1502 North Jefferson  
Carrollton, MO 64633

Dear Ms. Gamble:

Enclosed is Amendment No. 02 to your NRC Material License No. 24-32611-01 in accordance with your request. Please note that the changes made to your license are printed in **bold font**.

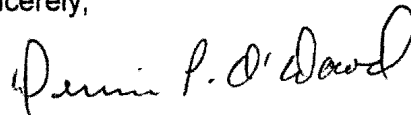

Please review the enclosed document carefully and be sure that you understand all conditions. If there are any errors or questions, please notify the U.S. Nuclear Regulatory Commission, Region III office at (630) 829-9887 so that we can provide appropriate corrections and answers.

You will be periodically inspected by NRC. Failure to conduct your program in accordance with NRC regulations, license conditions, and representations made in your license application and supplemental correspondence with NRC will result in enforcement action against you. This could include issuance of a notice of violation, or imposition of a civil penalty, or an order suspending, modifying or revoking your license as specified in the General Statement of Policy and Procedure for NRC Enforcement Actions. Since serious consequences to employees and the public can result from failure to comply with NRC requirements, prompt and vigorous enforcement action will be taken when dealing with licensees who do not achieve the necessary meticulous attention to detail and the high standard of compliance which NRC expects of its licensees.

The NRC's Safety Culture Policy Statement became effective in June 2011. While a policy statement and not a regulation, it sets forth the agency's *expectations* for individuals and organizations to establish and maintain a positive safety culture. You can access the policy statement and supporting material that may benefit your organization on NRC's safety culture Web site at <http://www.nrc.gov/about-nrc/regulatory/enforcement/safety-culture.html>. We strongly encourage you to review this material and adapt it to your particular needs in order to develop and maintain a positive safety culture as you engage in NRC-regulated activities.

In accordance with 10 Code of Federal Regulations 2.390 of the NRC's "Rules of Practice," a copy of this letter and its enclosure will be available electronically for public inspection in the NRC Public Document Room or from the NRC's Agencywide Documents Access and Management System (ADAMS), accessible from the NRC Web site at <http://www.nrc.gov/reading-rm/adams.html>.

Sincerely,

A handwritten signature in dark ink, appearing to read "Dennis P. O'Dowd". The signature is fluid and cursive, with the first name "Dennis" and last name "O'Dowd" clearly distinguishable.

Dennis P. O'Dowd  
Health Physicist

Amendment No. 02

15. Except as specifically provided otherwise in this license, the licensee shall conduct its program in accordance with the statements, representations, and procedures contained in the documents, including any enclosures, listed below. This license condition applies only to those procedures that are required to be submitted in accordance with the regulations. Additionally, this license condition does not limit the licensee's ability to make changes to the radiation protection program as provided for in 10 CFR 35.26. The U.S. Nuclear Regulatory Commission's regulations shall govern unless the statements, representations, and procedures in the licensee's application and correspondence are more restrictive than the regulations.

A. Application dated January 2, 2006.
