RE: Uranium One's Willow Creek (Christensen Ranch) Unit 10A Well Field Data Package, Permit No. 478, TFN 5 5/375 (Change No. 47)

Dear Mr. Winter:

This letter is written authorization to Uranium One to commence lixiviant injection in the Unit 10A Well Field at the Willow Creek (Christensen Ranch) Mine, Permit No. 478. Initial authorization for the well field was originally requested under your letter and package provided December 7th, 2012.

The Land Quality Division District III staff has reviewed the application and has now accepted the well field data package as complete. Staff of the Water Quality Division have reviewed and classified the water in the monitor wells.

The material submitted will be attached to and become a part of the Permit 478 document as **Change No. 47**, and classified as a fulfillment of a permit commitment.

If you have any questions regarding this matter, please contact me or Mike Ploughe in the District III Office.

Sincerely,

Nancy Nuttbrock
Administrator
Land Quality Division
