Facility Operating License No. DPR-52  
NRC Docket No. 50-260

Subject: **Revised Submittal Schedule for Supplemental Licensee Event Report 50-260/2012-003-01**

Reference: Letter from TVA to NRC, "Licensee Event Report 50-260/2012-003-00," dated September 17, 2012

In a letter dated September 17, 2012, the Tennessee Valley Authority (TVA) submitted a Licensee Event Report (LER) that provided details of the 480V reactor motor operated valve board 2E failure to manually transfer to alternate power. The TVA submitted LER 50-260/2012-003-00 in accordance with 10 CFR 50.73(a)(2)(i)(B). At the time of submittal of LER 50-260/2012-003-00, the causal analysis for the event was ongoing. Therefore, an expected submittal date of February 15, 2013, for a supplemental LER was established.

The TVA has not yet completed the causal analysis. As such, the supplemental LER will not be submitted on February 15, 2013, as previously established. At this time, it is expected that the supplemental LER will be submitted by March 15, 2013.
