Docket No. 03033265
Control No. 580028

License No. 52-25266-01

Carlos E. Rodriguez-Pérez, P.E., Ph.D.
President/Radiation Safety Officer
Geo Engineering, LLC
P. O. Box 270328
San Juan, PR 00927-0328

SUBJECT: GEO ENGINEERING, LLC, LICENSE AMENDMENT, CONTROL NO. 580028

Dear Dr. Rodriguez-Pérez:

This refers to your license amendment request dated February 19, 2013. Enclosed with this letter is the amended license (Amendment No. 09).

The amended license includes increase in the maximum possession limits of the radioisotopes authorized on the license, additional models of the devices, and a change in the name of the licensed entity. From your letter it is my understanding that this change in the name of your company did not occur as a result of transfer of control of licensed activities. Please notify this office immediately in writing if my understanding is in error.

Thank you for bringing to our attention the error in your license. We have corrected the error in the address of storage. This error was made when Amendment No. 02 of your license was processed on February 4, 2002, and remained uncorrected until you brought it to our attention. We regret any inconvenience this error may have caused.

Please note that your license expires on January 31, 2014. You must submit a complete application for its renewal no later than January 1, 2014. Please use the guidance provided in NRC document NUREG 1556, Vol. 1 (latest revision) to complete the application. This document is available from the NRC web site www.nrc.gov.

Please review the enclosed document carefully and be sure that you understand and fully implement all the conditions incorporated into the amended license. If there are any errors or questions, please notify the U.S. Nuclear Regulatory Commission, Region I Office, Licensing Assistance Team, (610) 337-5239, so that we can provide appropriate corrections and answers.

An environmental assessment for this action is not required, since this action is categorically excluded under 10 CFR 51.22(c)(14).

Current NRC regulations and guidance are included on the NRC's website at www.nrc.gov; select **Nuclear Materials; Med, Ind, & Academic Uses**; then **Licensee Toolkits, see our toolkit index page**. You may also obtain these documents by contacting the Government Printing Office (GPO) toll-free at 1-866-512-1800. The GPO is open from 8:00 a.m. to 5:30 p.m. EST, Monday through Friday (except Federal holidays).

The NRC's Safety Culture Policy Statement became effective in June 2011. While a policy statement and not a regulation, it sets forth the agency's *expectations* for individuals and organizations to establish and maintain a positive safety culture. You can access the policy statement and supporting material that may benefit your organization on NRC's safety culture web site at <http://www.nrc.gov/about-nrc/regulatory/enforcement/safety-culture.html>. We strongly encourage you to review this material and adapt it to your particular needs in order to develop and maintain a positive safety culture as you engage in NRC-regulated activities.

Please note that NRC Region I office has relocated to a new address. Please send all future correspondence related to your NRC license to the following address:

U. S. Nuclear Regulatory Commission, Region I
Attn: DNMS
2100 Renaissance Blvd, Suite 100
King of Prussia, PA 19406-2713

Our telephone and fax numbers remain unchanged.

Thank you for your cooperation.

Sincerely,

Original signed by Sattar Lodhi, Ph.D.
