J. A. Gresham,
Manager, Regulatory Compliance
Westinghouse Electric Company
Suite 428, 1000 Westinghouse Drive
Cranberry Township, Pennsylvania 16066

SUBJECT: WESTINGHOUSE ELECTRIC COMPANY REQUEST FOR WITHHOLDING
INFORMATION FROM PUBLIC DISCLOSURE
(REFERENCE CAW-13-3589 and CAW-13-3594)

Dear Mr. Gresham:

By letter dated January 30, 2013, Westinghouse Electric Company submitted an affidavit dated January 15, 2013, requesting that the information contained in the following documents be withheld from public disclosure pursuant to Title 10 of the *Code of Federal Regulations* (10 CFR), Part 2, Section 2.390:

1. WCAP 17601-P, Revision 1 "Reactor Coolant System Response to the Extended Loss of AC Power Event for Westinghouse, Combustion Engineering, and Babcock & Wilcox NSSS Designs," and
2. "PWROG Core Cooling Position Paper," Revision 0, November 2012, PA-PSC-0965, OG-13-26.

The affidavits for the above cited documents state that the submitted information should be considered exempt from mandatory public disclosure for the following reasons:

1. The information reveals the distinguishing aspects of a process (or component, structure, tool, method, etc.) where prevention of its use by any of Westinghouse's competitors without license from Westinghouse constitutes a competitive economic advantage over other companies.
2. It consists of supporting data, including test data, relative to a process (or component, structure, tool, method, etc.), the application of which data secures a competitive economic advantage, e.g., by optimization or improved marketability.
3. Its use by a competitor would reduce his expenditure of resources or improve his competitive position in the design, manufacture, shipment, installation, assurance of quality, or licensing a similar product.
4. It reveals cost or price information, production capacities, budget levels, or commercial strategies of Westinghouse, its customers or suppliers.
5. It reveals aspects of past, present, or future Westinghouse or customer funded development plans and programs of potential commercial value to Westinghouse.

6. It contains patentable ideas, for which patent protection may be desirable.

We have reviewed your application and the material in accordance with the requirements of 10 CFR 2.390 and, on the basis of your statements, have determined that the submitted information sought to be withheld contains proprietary commercial information and should be withheld from public disclosure.

Due to the extent of proprietary information contained in these documents, Westinghouse was not required to submit a non-proprietary version.

Therefore, WCAP 17601-P, Revision 1 "Reactor Coolant System Response to the Extended Loss of AC Power Event for Westinghouse, Combustion Engineering, and Babcock & Wilcox NSSS Designs," and "PWROG Core Cooling Position Paper," Revision 0, November 2012, PA-PSC-0965, OG-13-26, marked as proprietary, will be withheld from public disclosure pursuant to 10 CFR 2.390(b)(5) and Section 103(b) of the Atomic Energy Act of 1954, as amended.

Withholding from public inspection shall not affect the right, if any, of persons properly and directly concerned to inspect the documents. If the need arises, we may send copies of this information to our consultants working in this area. We will, of course, ensure that the consultants have signed the appropriate agreements for handling proprietary information.

If the basis for withholding this information from public inspection should change in the future such that the information could then be made available for public inspection, you should promptly notify the NRC. You also should understand that the NRC may have cause to review this determination in the future, for example, if the scope of a Freedom of Information Act request includes your information. In all review situations, if the NRC makes a determination adverse to the above, you will be notified in advance of any public disclosure.

If you have any questions regarding this matter, I may be reached at 301-415-5112.

Sincerely,

/ **RA** /

Jessica Kratchman, Project Manager
