Loree,

The letter of concern is not in ADAMS. Let me try next Monday to find out how best to correct this problem. It maybe okay for me to correct the page number. But PDR will have to accept the change I make.

Regards

Tom, still trying to figure out how best to get a corrected version submitted to Document Control. I spoke to someone in the PDR Resource office to find out the best way to do that. She was unable to find this letter in ADAMS, although another letter sent the same day and in the same mailing package is there (U7-C-NINA-NRC-130002 / ML#13008A237 re: the response to RIA 08.02-25). Wondering if the reason it isn't in ADAMS is due to the "missing" page - did someone from Document Control contact you about that or did you just notice it?

Thanks,
Loree

Loree,

I was in training all day and I apologize for not able to respond to you. Re-submitting the response (which I notice you have in a subsequent e-mail) is okay.

Regards

Tom, I checked on our end and this was a page numbering error caused by the footnote on page 11 extending to page 12 in the Word version of the document, but not in the pdf conversion. We should have caught when we printed the hard copy but we did not. The pdf attachment is complete (there is not a page missing), but the page numbering is incorrect.

I can re-send the letter with a corrected Attachment 3, but I am trying to determine the best way to do make this correction for Document Control.

Thanks for bringing this to our attention, Loree

Loree,

Attachment 3 is missing page 12 of 19. Please re-submit.

Thanks
