SUBJECT: UPDATE OF THE GENERIC ISSUE MANAGEMENT CONTROL  
SYSTEM REPORT (FY 2013, Q2)

The Office of Nuclear Regulatory Research (RES) requests information on the status of the active Generic Issues (GIs) managed by your branch. This information will be used to develop the Generic Issue Management Control System second quarter report for fiscal year (FY) 2013. The second quarter reporting period extends to March 1, 2013, therefore, updates should address status as of that date and include any necessary changes to the status presented in the FY 2013 1st quarter report (ML13007A492). Arthur Cunanan will contact the following staff members, who are responsible for each GI, to make arrangements for obtaining updated information:

Steven Jones (GI-189 task manager)  
Stewart Bailey (GI-191 task manager)

CONTACT: Arthur Cunanan, RES/DRA  
301-251-7457

William Krotiuk (GI-193 task manager)  
Clifford Munson (GI-199 task manager)  
Christopher Cook (GI-204 task manager)

This information will be available to the public and other Government agencies. Therefore, you and your staff should provide only publicly releasable information. To permit timely issuance of the update, our office would appreciate receiving updates on, or before, March 20, 2013.
