SUBJECT: APPLICATION FOR CERTIFICATE OF COMPLIANCE NO. 9330 FOR THE
MODEL NO. ATR FFSC – SUPPLEMENTAL INFORMATION NEEDED

Dear Dr. Shuler:

By letter dated December 20, 2012, you submitted an application for revision to the Certificate of Compliance for Model Number ATR FFSC (Docket No. 71-9330). Staff performed an acceptance review of the application to determine if it contained sufficient technical information in scope and depth to allow the staff to complete the detailed technical review.

This letter is to advise you that, based on our acceptance review, the application does not contain sufficient technical information. The information needed to continue our review is described in the enclosure to this letter as a Request for Supplemental Information (RSI). In order to schedule our technical review, the RSI responses should be provided by March 15, 2013. If the RSI responses are not received by this date, the review of this application may be delayed. If you have any questions regarding this matter, please contact me at (301) 492-3148.

Sincerely,

/RA/

Chris Allen, Project Manager
Licensing Branch
Division of Spent Fuel Storage and Transportation
Office of Nuclear Material Safety
and Safeguards

REQUEST FOR SUPPLEMENTAL INFORMATION

CRITICALITY

- 6.1 Provide the necessary input files so that staff may complete the criticality analysis for the application.

The applicant only provided the safety analysis report. As such, the staff cannot determine whether the package has been appropriately represented in the criticality models. Representative input files are needed to determine how the analysis was performed and that the proposed conditions in the drawing notes are properly justified by the analysis.

This information is needed to demonstrate compliance with 10 CFR 71.31.
