**GENERAL ATOMICS' RESPONSE TO THE RULING IN
SECTIONS II.A OF LBP-94-5**

General Atomics respectfully submits that the February 24, 1994 ruling of the Atomic Safety and Licensing Board in Section II.A. of LBP-94-5 is incorrect, that the Nuclear Regulatory Commission should accept immediate review of the ruling, and that the Commission should reverse the ruling.

In an effort to minimize its legal expenses, and because it believes that the grounds and arguments set forth in the March 11, 1994 Initial Brief of Sequoyah Fuels Corporation in opposition to the ruling are sound, General Atomics adopts and incorporates herein, those same arguments.

Respectfully submitted,

By Stephen M. Duncan
