Nuclear Regulatory Affairs
Luminant Generation Company, LLC
P.O Box 1002
Glen Rose, Texas 76043

SUBJECT: IDENTIFICATION OF NEW INFORMATION AFTER THE FINAL
ENVIRONMENTAL IMPACT STATEMENT ISSUANCE FOR COMANCHE PEAK
NUCLEAR POWER PLANT, UNIT 3 AND 4, COMBINED LICENSE
APPLICATION

Dear Mr. Woodlan:

The purpose of this letter is to request that Luminant Generation Company, LLC, copy the U.S. Nuclear Regulatory Commission (NRC or Commission) environmental project manager on correspondence between Luminant, Federal, State and other agencies regarding the Comanche Peak Nuclear Power Plant, Units 3 and 4, combined operating license. This correspondence should include, but is not limited to, correspondence with the U.S. Army Corps of Engineers and other Federal and State agencies. The reason for this request is to ensure the staff is made aware of any changes to the proposed action, new circumstances or information that might be potentially significant to our environmental review. If there has been correspondence regarding environmental aspects of the project since the issuance of the final environmental impact statement (FEIS) in May 2011 that were not previously submitted to the NRC, the NRC requests that information be submitted at this time.

The NRC would prepare a supplement to the FEIS in accordance with Title 10 of the *Code of Federal Regulations* (CFR) 51.92, if 1) there are substantial changes in the proposed actions that are relevant to environmental concerns, or 2) there are new and significant circumstances or information relevant to environmental concerns and bearing on the proposed action on its impacts. The NRC will review all correspondence provided to us to determine if a supplement to the FEIS is warranted. The basis for this request is 10 CFR 51.41, which provides that the Commission may require an applicant to submit information to the Commission that may be useful in aiding the Commission in complying with Section 102(2) of the National Environmental Policy Act.
