Dear Secretary,

It is clear the Nuclear Industry has no idea how to deal with a serious accident or every nuclear engineer alive would band together to stop the ongoing tragedy in Japan which is affecting far more than that nation. Wake up before it is too late.

I wish to become a co-petitioner on the Petition for Rulemaking submitted February 15, 2012 by Nuclear Information and Resource Service and 37 other organizations.

This petition would make substantial and necessary improvements in the NRC's emergency planning regulations.

Please inform me when this petition is docketed for public comment.

Thank you.

Kim Dunn
