Dear Secretary,

I wish to become a co-petitioner on the Petition for Rulemaking submitted February 15, 2012 by Nuclear Information and Resource Service and 37 other organizations.

Awhile back I read a novel in which a nuclear plant exploded, and if I had been in that mess, I wouldn't have been comfortable being within fifty miles of the plant. I don't necessarily expect anything so drastic here, but I still would want that safety corridor, just in case something else major went wrong.

This petition would make substantial and necessary improvements in the NRC's emergency planning regulations.

Please inform me when this petition is docketed for public comment.

Thank you.

Beth Kaplan
