Here is the email from Westinghouse that you suggested. Does this suffice to allow us to get access to WEC proprietary transcripts for issues related to NINA STP 3&4 COL application? Do

you want WEC to send it directly to you and Maitri. Give me a call tomorrow and we can discuss.

Jim and Scott,

This email is to document Westinghouse's authorization for NINA to receive, and for NRC/ACRS to release to NINA, transcripts that contain Westinghouse proprietary information related to the NINA STP 3&4 COL application and associated materials, such as ABWR-related fuel topical reports.

If you have any questions on this authorization, please contact the undersigned.

Best regards,  
Bob
