Flag Status: Completed

dear NRC staff,

i understand you will vote soon on whether to install vents for radiation on all mark i and ii nukes. A vote yes will mean you want to protect citizens from radiation leakage, as is being done throughout europe and japan. a vote no will mean the industry doesn't want the trouble and expense. i urge you to act on behalf of citizens and protect us from the menace of radiation leakage from these old plants. please let us join the company of other nations who put public health before profit margins.

thank you

sandra boston
greenfield, ma
