Subject: Hematite Decommissioning Project: Request for Extension of Time for the  
Effluent Monitoring Report Required by 10 CFR 70.59 (License No. SNM-  
00033, Docket No. 070-00036)

References: 1) 10 CFR 70.59, Effluent Monitoring Reporting Requirements

Per Reference 1, Westinghouse Electric Company LLC (Westinghouse) is required to submit an effluent monitoring report for the Hematite Decommissioning Project (HDP) to the U.S. Nuclear Regulatory Commission (NRC) within 60 days of January 1 of each year.

The purpose of this letter is to request an extension of three weeks to submit the required effluent monitoring report for the six month period ending December 31, 2012. The reason for this request is a delay in receiving our analytical data from the contract laboratory, in part due to a severe ice/snow storm.

Please contact me at 314-810-3376, or Kevin Davis at 314-810-3348, should you have questions or need additional information.

Sincerely,

A handwritten signature in cursive script that reads "Dennis Richardson".

Dennis Richardson  
Deputy Director, Hematite Decommissioning Project
