Dear Mr. DeLaBarre:

Enclosed is an application (XCOM1265), dated January 18, 2013, received by the U.S. Nuclear Regulatory Commission (NRC), from Materion Brush Inc. for the export of beryllium reflector assemblies as they are components included in 10 CFR Part 110, Appendix A, items (9), for use in the Reactor Jules Horowitz in France.

We understand that the Executive Branch has accepted the generic assurances provided for similar exports of components to France. Therefore the NRC intends to issue this license after the 30 day review period on the basis of these generic assurances.

Sincerely,

A handwritten signature in black ink, appearing to read "Janice E. Owens", is written over a horizontal line.
