Subject: RE: IN Background Information

Jake,

I am also working on a documented evaluation on NSAC/60, which is in draft form, but may be a better summary of the background issue. It is not complete and does not have a discussion of the dam failure rate in detail, but may be helpful.

Thanks,
Fernando

Subject: IN Background Information

Jake,

I am sending you some background info ahead of our meeting:

- In ML1019003054, see page 3 for a discussion of the overall issue with NSAC/60
- The draft IN attached is an old version which I am in the process of re-writing

I will come to CSB and meet you at 2-C08.

Thank you,

Fernando Ferrante, Ph.D.
