SUPPLEMENTARY INFORMATION:

I. Introduction

The U.S. Nuclear Regulatory Commission (NRC) is withdrawing Regulatory Guide (RG) 6.3, "Design, Construction, and Use of Radioisotopic Power Generators for Certain Land and Sea Applications," published in March 1974. RG 6.3 provides guidance on the safe design, construction, and use of radioisotopic power generators. The NRC is withdrawing this regulatory guide because it is no longer required.

RG 6.3 supported activities requiring a license pursuant to Title 10 of the *Code of Federal Regulations*, Parts 30,

40, and 70. The guidance in RG 6.3 applies to types of devices that are no longer used and have been replaced by other technology. Therefore, no licensing actions for these devices are being submitted or reviewed by license reviewers and the guidance is no longer needed.

II. Further Information

The withdrawal of RG 6.3 does not alter any prior or existing licensing commitments based on its use. The guidance provided in this regulatory guide is no longer necessary. Regulatory guides may be withdrawn when their guidance is superseded by congressional action or no longer provides useful information.

Regulatory guides are available for inspection or downloading through the NRC's public Web site under "Regulatory Guides" in the NRC's Electronic Reading Room at <http://www.nrc.gov/reading-rm/doc-collections>. RAILROAD RETIREMENT BOARD

Agency Forms Submitted for OMB Review, Request for Comments

SUMMARY: In accordance with the Paperwork Reduction Act of 1995 (44 U.S.C. Chapter 35), the Railroad Retirement Board (RRB) is forwarding three (3) Information Collection Requests (ICR) to the Office of Information and Regulatory Affairs (OIRA), Office of Management and Budget (OMB).

The RRB invites comments on the proposed ICR's to determine (1) the practical utility of the collections; (2) the accuracy of the estimated burden of the collections; (3) ways to enhance the

quality, utility and clarity of the information that is the subject of collection; and (4) ways to minimize the burden of collections on respondents, including the use of automated collection techniques or other forms of information technology. Comments to RRB or OIRA must contain the OMB control number of the ICR. For proper consideration of your comments, it is best if RRB and OIRA receive them within 30 days of publication date

1. Employee Representative's Status and Compensation Reports; OMB 3220-0014

Under Section 1(b)(1) of the Railroad Retirement Act (RRA), the term "employee" includes an individual who is an employee representative. As defined in Section 1(c) of the RRA, an employee representative is an officer or official representative of a railway labor organization other than a labor organization included in the term "employer," as defined in the RRA, who before or after August 29, 1935, was in the service of an employer under the RRA and who is duly authorized and designated to represent employees in accordance with the Railway Labor Act, or, any individual who is regularly assigned to or regularly employed by such officer or official representative in connection with the duties of his or her office. The requirements relating to the application for employee representative status and the periodic reporting of the compensation resulting from such status is contained in 20 CFR 209.10.

The RRB utilizes Forms DC-2a, Employee Representative's Status Report, and DC-2, Employee Representative's Report of Compensation, to obtain the information needed to determine employee representative status and to maintain a record of creditable service and compensation resulting from such status. Completion is required to obtain or retain a benefit. One response is requested of each respondent.

No changes are proposed to Form DC-2a and Form DC-2. The completion time for Form DC-2 is estimated at 30 minutes per response. The RRB estimates that approximately 65 Form DC-2's are completed annually. The RRB estimates that less than 10 Form DC-2a's are completed annually.

Previous Requests for Comments: The RRB has already published the initial 60-day notice (74 FR 17895 on April 17, 2009) required by 44 U.S.C. 3506(c)(2). That request elicited no comments.
