Subject: NRC Comments - draft Augmented Seismic Approach
Attachments: NRC COMMENTS -- Seismic Aug App - 12 Mar 2013 Draft - to NEI.pdf

Kimberly,

Attached are the staff's comments on the draft EPRI document: Augmented Seismic Approach. These comments were discussed with you and stakeholders at a February 14, 2013, public meeting.

The next public meeting will be on March 26, where we plan to discuss your final draft of the Augmented Seismic Approach from 9 AM to noon, as needed. We request that you submit your *final draft* to the staff prior to the March 26 meeting so staff can review it and make the document publicly available in ADAMS prior to the public meeting.

The final document for staff approval should be submitted shortly following the public meeting. This will enable an appropriate staff response prior to the licensees' April 29 response date as requested by the 10 CFR 50.54(f) letter.

If you have any questions or comments, please do not hesitate to contact me.

Thank you,
Lisa Regner

[The March 26 meeting notice should be posted to the NRC public website tomorrow. The EPRI ground motion model update project is scheduled to be discussed in the afternoon session of the March 26 public meeting.]
