

To the Commission:

In accordance with 10 C.F.R. § 2.307(a), I am formally requesting an extension of the time limit set out in my final denial letter to request a formal hearing. I am requesting this extension based on good cause as required by 10 C.F. R. § 2.307(a).

Upon receipt of the final denial to my Senior Reactor Operator (SRO) license, it was shown that the NRC made a different interpretation of Technical Specification 3.3.3.1 from the way that Waterford 3 implements it in plant operations. Since receipt of the denial letter, a Condition Report (CR-WF-2013-01031) has been initiated, to look at the interpretation of the Technical Specification using the results of my exam review provided by the NRC.

I cannot determine whether or not to request an adjudicatory hearing until I receive the results of this Condition Report from my plant. Therefore, I request an extension of thirty (30) days to allow my plant time to complete their investigation and allow me adequate time to receive and review the response prior to determining whether to make a hearing request.

If you need anything further from me in order to make your determination please feel free to contact me at 225-572-9922 or [mcarterjr@gmail.com](mailto:mcarterjr@gmail.com). Thank you in advance for your consideration. I look forward to hearing from you in the near future in this regard.

Sincerely,

Mark A. Carter, Jr.
