

## CHAPTER 6—ENGINEERED SAFETY FEATURES LIST OF FIGURES

|                 |  |         |
|-----------------|--|---------|
| Figure 6.2.1-1  | Figure Deleted .....   | 6.2-179 |
| Figure 6.2.1-2  | Figure Deleted .....   | 6.2-179 |
| Figure 6.2.1-3  | Figure Deleted .....   | 6.2-179 |
| Figure 6.2.1-4  | Figure Deleted .....   | 6.2-179 |
| Figure 6.2.1-5  | Figure Deleted .....   | 6.2-179 |
| Figure 6.2.1-6  | Figure Deleted .....   | 6.2-179 |
| Figure 6.2.1-7  | Figure Deleted .....   | 6.2-179 |
| Figure 6.2.1-8  | Figure Deleted .....   | 6.2-179 |
| Figure 6.2.1-9  | Figure Deleted .....   | 6.2-179 |
| Figure 6.2.1-10 | LOCA Containment Pressure vs. Time (HL Break) .....                          | 6.2-180 |
| Figure 6.2.1-11 | LOCA Containment Temperature vs. Time (HL Break) .....                       | 6.2-181 |
| Figure 6.2.1-12 | LOCA Containment Pressure vs. Time (HL Break Long-term)...                   | 6.2-182 |
| Figure 6.2.1-13 | LOCA Containment Temperature vs. Time (HL Break Long-term).....<br>6.2-183   |         |
| Figure 6.2.1-14 | LOCA Containment Pressure vs. Time (CLPS Break).....                         | 6.2-184 |
| Figure 6.2.1-15 | LOCA Containment Temperature vs. Time (CLPS Break) .....                     | 6.2-185 |
| Figure 6.2.1-16 | LOCA Containment Pressure vs. Time (CLPS Break Long-term) .....              | 6.2-186 |
| Figure 6.2.1-17 | LOCA Containment Temperature vs. Time (CLPS Break Long-term) ....<br>6.2-187 |         |
| Figure 6.2.1-18 | LOCA Containment Pressure vs. Time (CLPD Break) .....                        | 6.2-188 |
| Figure 6.2.1-19 | LOCA Containment Temperature vs. Time (CLPD Break) .....                     | 6.2-189 |
| Figure 6.2.1-20 | LOCA Containment Pressure vs. Time (CLPD Break Long-Term).....<br>6.2-190    |         |
| Figure 6.2.1-21 | LOCA Containment Temperature vs. Time (CLPD Break Long-Term)..<br>6.2-191    |         |
| Figure 6.2.1-22 | LOCA Integrated Break Mass Flow vs. Time (HL Break) .....                    | 6.2-192 |
| Figure 6.2.1-23 | LOCA Integrated Break Energy Flow vs. Time (HL Break).....                   | 6.2-193 |
| Figure 6.2.1-24 | LOCA Integrated Break Mass Flow vs. Time (CLPS Break).....                   | 6.2-194 |

|                 |   |         |
|-----------------|---|---------|
| Figure 6.2.1-25 | LOCA Integrated Break Energy Flow vs. Time (CLPS Break)....                           | 6.2-195 |
| Figure 6.2.1-26 | LOCA Integrated Break Mass Flow vs. Time (CLPD Break) .....                           | 6.2-196 |
| Figure 6.2.1-27 | LOCA Integrated Break Energy Flow vs. Time (CLPD Break)....                           | 6.2-197 |
| Figure 6.2.1-28 | LOCA Integrated Break Mass Flow vs. Time (HL Break, Long-Term)....                    | 6.2-198 |
| Figure 6.2.1-29 | LOCA Integrated Break Energy Flow vs. Time (HL Break, Long-Term) .                    | 6.2-199 |
| Figure 6.2.1-30 | LOCA Integrated Break Mass Flow vs. Time (CLPS Break, Long-Term)                      | 6.2-200 |
| Figure 6.2.1-31 | LOCA Integrated Break Energy Flow vs. Time (CLPS Break, Long-Term) .....              | 6.2-201 |
| Figure 6.2.1-32 | LOCA Integrated Break Mass Flow vs. Time (CLPD Break, Long-Term)                      | 6.2-202 |
| Figure 6.2.1-33 | LOCA Integrated Break Energy Flow vs. Time (CLPD Break, Long-Term) .....              | 6.2-203 |
| Figure 6.2.1-34 | MSLB 20% Power Pressure Response .....  | 6.2-204 |
| Figure 6.2.1-35 | MSLB 20% Power Temperature Response .....   | 6.2-205 |
| Figure 6.2.1-36 | LOCA Containment Dome Temperature at Different Elevations (HL Break Long-Term).....   | 6.2-206 |
| Figure 6.2.1-37 | LOCA Containment Temperature below the Dome (HL Break Long-Term) .....                | 6.2-207 |
| Figure 6.2.1-38 | LOCA Containment Dome Temperature at Different Elevations (CLPS Break Long-Term)..... | 6.2-208 |
| Figure 6.2.1-39 | LOCA Containment Temperature below the Dome (CLPS Break Long-Term) .....              | 6.2-209 |
| Figure 6.2.1-40 | LOCA Containment Dome Temperature at Different Elevations (CLPD Break Long-Term)..... | 6.2-210 |
| Figure 6.2.1-41 | LOCA Containment Temperature below the Dome (CLPD Break Long-Term) .....              | 6.2-211 |
| Figure 6.2.1-42 | MSLB 20% Power Steam Generator Dome Pressure .....                                    | 6.2-212 |
| Figure 6.2.1-43 | MSLB 20% Power Integrated Break Mass vs. Time .....                                   | 6.2-213 |
| Figure 6.2.1-44 | MSLB 20% Power Integrated Break Energy vs. Time .....                                 | 6.2-214 |
| Figure 6.2.1-45 | JEA 10 (SG) Room Example Nodalization Diagram.....                                    | 6.2-215 |
| Figure 6.2.1-46 | Access Area Pressure vs. Time (-8 ft Room 2).....                                     | 6.2-216 |
| Figure 6.2.1-47 | LCQ (SGBS) HX Room Pressure vs. Time (-8 ft Room 7) .....                             | 6.2-217 |
| Figure 6.2.1-48 | KBA12 (CVCS) HX Room Pressure vs. Time (-8 ft Room 14)....                            | 6.2-218 |

|                 |  |         |
|-----------------|--|---------|
| Figure 6.2.1-49 | KBA11 (CVCS) HX Room Pressure vs. Time (-8 ft Room 15)....                               | 6.2-219 |
| Figure 6.2.1-50 | KBA (CVCS) Valve Room Pressure vs. Time (-8 ft Room 16)...                               | 6.2-220 |
| Figure 6.2.1-51 | KBA (CVCS) Valve Room Pressure vs. Time (-8 ft Room 17)....                              | 6.2-221 |
| Figure 6.2.1-52 | LCQ50 (SGBS) Tank Room Pressure vs. Time (+5 ft Room 16)                                 | 6.2-222 |
| Figure 6.2.1-53 | KBA (CVCS) Valve Room Pressure vs. Time (+5 ft Room 20)..<                               | 6.2-223 |
| Figure 6.2.1-54 | KBA (CVCS) Valve Room Pressure vs. Time (+5 ft Room 21)...                               | 6.2-224 |
| Figure 6.2.1-55 | BA10 (CVCS) HX Room Pressure vs. Time (+5 ft Room 22) .....                              | 6.2-225 |
| Figure 6.2.1-56 | JEA10 (SG) Room Pressure vs. Time (+45 ft Room 2) .....                                  | 6.2-226 |
| Figure 6.2.1-57 | JEA20 (SG) Room Pressure vs. Time (+45 ft Room 3) .....                                  | 6.2-227 |
| Figure 6.2.1-58 | JEA40 (SG) Room Pressure vs. Time (+45 ft Room 7) .....                                  | 6.2-228 |
| Figure 6.2.1-59 | JEA10 (SG) Room Pressure vs. Time (+64 ft Room 1) .....                                  | 6.2-229 |
| Figure 6.2.1-60 | JEA20 (SG) Room Pressure vs. Time (+64 ft Room 2) .....                                  | 6.2-230 |
| Figure 6.2.1-61 | JEA30 (SG) Room Pressure vs. Time (+64 ft Room 5) .....                                  | 6.2-231 |
| Figure 6.2.1-62 | JEA40 (SG) Room Pressure vs. Time (+64 ft Room 6) .....                                  | 6.2-232 |
| Figure 6.2.1-63 | JEF10 (RCS) Pressurizer Room Pressure vs. Time<br>(+64 ft Room 14).....                  | 6.2-233 |
| Figure 6.2.1-64 | Pressurizer Head & Safety Relief Valves Room Pressure vs. Time (+79<br>ft Room 12) ..... | 6.2-234 |
| Figure 6.2.3-1  | AVS Normal Operation Train .....   | 6.2-248 |
| Figure 6.2.3-2  | AVS Accident Trains .....  | 6.2-249 |
| Figure 6.2.4-1  | Representative Containment Isolation Valve Arrangement .....                             | 6.2-282 |
| Figure 6.2.4-2  | Containment Isolation Valve Arrangements for Overpressure Protection<br>6.2-283          |         |
| Figure 6.2.5-1  | Arrangement and Location of the Passive Autocatalytic Recombiners ..<br>6.2-300          |         |
| Figure 6.2.5-2  | Integrated Production of Hydrogen from 1% Core Oxidation.....                            | 6.2-301 |
| Figure 6.2.5-3  | Integrated Production of Hydrogen from Radiolysis .....                                  | 6.2-302 |
| Figure 6.2.5-4  | Assumed Hydrogen Generation Rate from Zinc Sources.....                                  | 6.2-303 |
| Figure 6.2.5-5  | Assumed Hydrogen Generation Rate from Aluminum Sources..                                 | 6.2-304 |
| Figure 6.2.5-6  | Integrated Production of Hydrogen from Zinc-Based Paint .....                            | 6.2-305 |
| Figure 6.2.5-7  | Integrated Production of Hydrogen from Galvanized Steel.....                             | 6.2-306 |
| Figure 6.2.5-8  | Integrated Production of Hydrogen from Aluminum.....                                     | 6.2-307 |
| Figure 6.2.5-9  | Concentration of Hydrogen in the Containment.....  | 6.2-308 |
| Figure 6.3-1    | Safety Injection System Overview .....   | 6.3-38  |
