RE: Letter of Support for Restart and Operation of San Onofre Nuclear Generating Station

Dear Ms. MacFarlane:

On behalf of Human Services Association (HSA), I would like to express our support for the restart and operation of San Onofre Nuclear Generating Station near San Clemente, Ca.

HSA is one of the largest nonprofit social services agencies in Southeast Los Angeles County providing a wide range of services to enhance the cultural, ethical, and social consciousness of underprivileged children, adults, seniors, and families. HSA is dedicated to providing families with compassionate and comprehensive care to promote wellness and build strong communities. Our vision is that families are safe, healthy, happy, and thriving in their communities.

HSA would like to voice the concerns of the community we serve who struggle with economic issues. Our community needs the San Onofre Nuclear Generating Station to come online to provide reliable cost effective electricity to our region considering that it is 100% safe.

I strongly urge you to support a reasonable and prompt process for the reopening of the San Onofre Nuclear Generation Station.

Sincerely,

Leticia D. Chacon, Chief Executive Officer
