The Honorable Allison M. Macfarlane
Chairman
US Nuclear Regulatory Commission
Washington, D. C. 20555-001

Dear Chairwoman Macfarlane:

I am writing to express support for a fair and inclusive regulatory process as is currently underway for the proposed restart and operation of the San Onofre Nuclear Generating Station (SONGS) Unit 2. As Mayor of Laguna Hills, I strongly believe that maintaining a public and transparent regulatory process is vital for the desired restart of SONGS. Moreover, after attending a recent high-level executive briefing on the current status of this matter, I strongly believe that Southern California Edison has proposed a reasonable and safe Return-to-Service Action Plan. Therefore, if the Nuclear Regulatory Commission (NRC) determines they have sufficiently completed the compensatory and corrective actions requested in the March 27, 2012 Confirmatory Action Letter and that a restart of Unit 2 is safe, then I support letting them do so.

California businesses and residents are facing a tough economy and with thousands of jobs and public services that depend on a reliable power system, SONGS serves a critical function of providing voltage support throughout the year. Developing alternative sources of energy to offset the loss of power generated at SONGS may be necessary, and I am concerned that no energy source will be integrated quickly enough to provide for the immediate reliability that our businesses and residents need during peak conditions.

Finally, our recovery into a strong economy requires affordable, reliable power to businesses and residents alike. Therefore, I encourage the NRC to continue moving forward with the existing process and look forward to a favorable authorization for the restart of SONGS.

If you have any questions, please feel free to contact me.

Sincerely,

BARBARA D. KOGERMAN
Mayor
