### **QUESTIONS**

19-21

The NRC staff has been directed by the Commission to implement the Fukushima Near-Term Task Force Recommendations, as presented in SECY-12-0025, "Proposed Orders and Requests for Information in Response to Lessons Learned from Japan's March 11, 2011, Great Tohoku Earthquake and Tsunami," dated February 12, 2012. This request for additional information specifically addresses Recommendation 4.2 on Mitigating Strategies, as described in Attachment 2 to Order EA-12-049. The NRC staff understands that a COL applicant referencing the EPR design would implement actions to address these provisions, and that you would propose a license condition that would require such actions. In your response, please specifically include in the text of any proposed license condition the extent of your commitment to follow the guidance in JLD-ISG-2012-01, or any alternative approaches.
